

INTRODUCING

WAVE

A new personnel carrier for standing passengers that offers impact protection, fall prevention and has floating and self-righting capabilities. Millions of passengers have been safely transferred using Reflex Marine carriers over the last 15 years. Industry experience and feedback led to the development of **WAVE** which focuses on **passenger experience**, **cost efficiency** and **ease of ownership**.

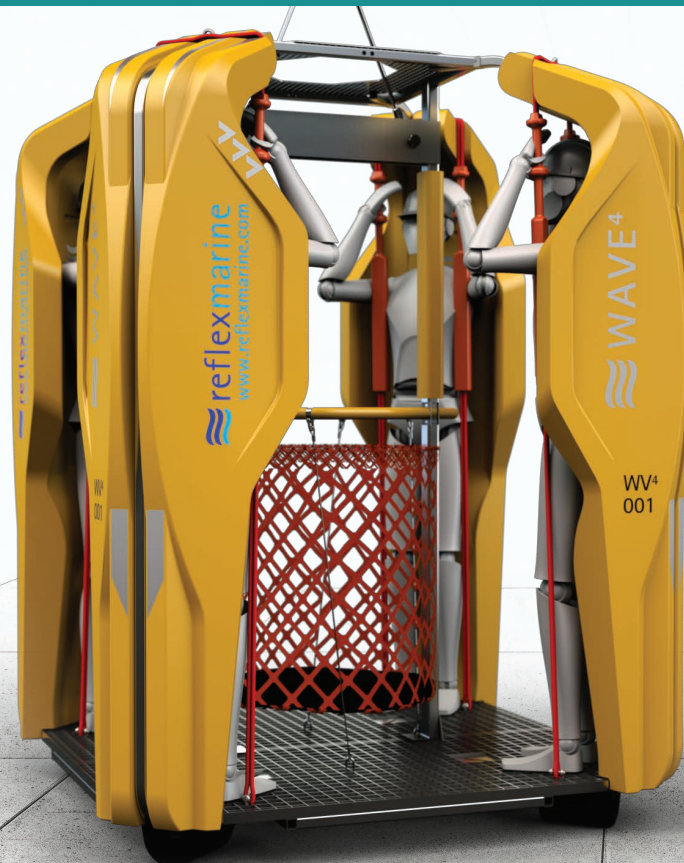

WAVE is in the final stages of development and will be available for delivery from May 2016. Please [contact us](#) for the latest update. February 2016

IMPACT PROTECTION

- ▶ Robust stainless steel frame
- ▶ Buoyancy shield providing overhead and lateral impact protection
- ▶ Shock absorbing, durable landing feet

PASSENGER EXPERIENCE

- ▶ Internal facing
- ▶ Rapid entry and exit

FALL PREVENTION

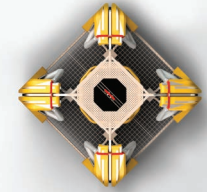

- ▶ Passenger safety restraints
- ▶ Hand grips
- ▶ Contoured buoyancy

IMMERSION PROTECTION

- ▶ Self-righting
- ▶ Floating

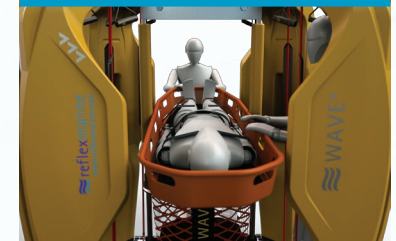

FOOTPRINT

1710mm x 1710mm / 67in x 67in

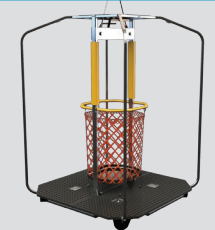

- ▶ Smallest footprint of any 4 person rigid transfer device
- ▶ Convenient for landing, shipping and storage

MEDICAL EVACUATION
