

Technical Advisory - Passenger Loading Sequence for Frog-XT6

1.0. Introduction

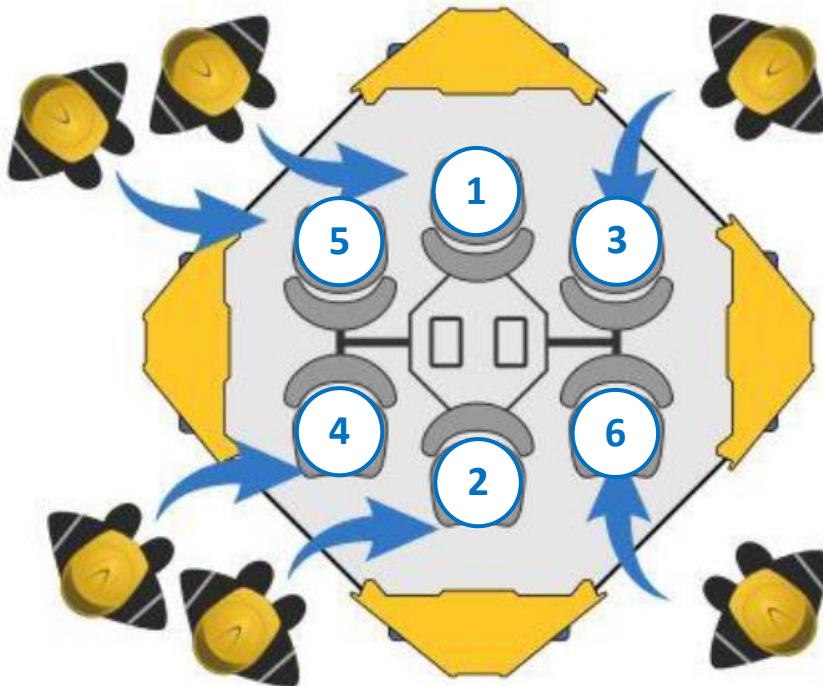

The Frog-XT6 user manual does not contain guidance on the passenger loading sequence. Below is the interim guidance. This will be incorporated into the next revision of the Frog-XT6 user manual and training program.

2.0 Recommended Loading Sequence for Frog-XT6

- The supervisor and deck crew should understand and control the passenger loading sequence.
- The supervisor or deck crew should make passengers aware of their position prior to approaching Frog.
- The passenger load should be distributed as evenly as possible, to maintain best balance of Frog when lifted.

As per figure below:

- The first two passengers should use the central seats;
- The second two passengers should be seated to the right-hand-side of the central seats;
- The third two passengers should be seated to the left-hand-side of the central seats.
